

Roll-Pak

is a convenient way to organize, protect, store, and transport your surgical instruments. No more damaging delicate instruments by placing them in drawers or storage containers.

ROLL-PAK

Protect your surgical instrument investment with Roboz's Roll-Pak. Store your instruments inside Roll-Pak in between uses. Transport your instruments from lab to lab. Protect your instruments from one another by placing one instrument in each slot provided. Organize packs or types of instruments by placing one group or type in their own Roll-Pak.

The Roll-Pak is available in 3 sizes:

RS-9960 small holds 5 instruments

RS-9962 medium holds 12 instruments

RS-9964 large holds 18 instruments
